

Annual Report 2016

Sustainability highlights

Making the world healthier and more sustainable

In 2016, we made further advances in the focal areas of access to care, circular economy and climate action, taking us closer to our goal of improving the lives of 2.5 billion people a year by 2030, including 400 million in underserved communities.

Climate action

- 5% reduction in carbon footprint.
- Continuing efforts to reduce air travel by improving and stimulating video conferencing.
- In December 2016, the Los Mirasoles wind farm became operational, powering our US operations with 100% renewable electricity.

Other highlights

- Philips achieved the status of Industry Group leader (the highest position) in the Capital Goods category of the 2016 Dow Jones Sustainability Index (DJSI), with an overall score of 92 points out of 100.
- In our new five-year sustainability program, 'Healthy people, sustainable planet', the Lives Improved target for 2020 has been set at 2.5 billion people a year (includes the contribution of Lighting).
- Green Revenues 64.1% of total sales.
- Health & Safety – Total Recordable Cases (TRC) 0.41 per 100 FTE.
